

DATA SHEET

Lens Part No : OPLLC0011

LED: SAMSUNG LH351B

Contents

1. Lens Details, Usage & Maintenance
2. LED Source Details
3. Simulation Tool Details
4. Plots and Results
5. Lens Drawing And Package Specification
6. Contact Details

Lens Details, Usage & Maintenance

SL.No	Parameter	Specification
1.	Lens Material	PMMA
2.	Lens Dimensions	Ø 19.40 mm & Height 13.50 mm
3.	Operating Temperature (T_{Opt})	-40 to +80° C
4.	Lighting Application	Flood Light and Bay Light

1. If necessary, clean Lenses with mild soap, water and soft cloth.
2. Never use any commercial cleaning solvents on Lenses, like alcohol.
3. Please handle or install Lenses with wearing gloves, skin oil may damage Lens or its Optical Characteristic.

Note: Simulation carried out by coupling single Lens with SAMSUNG LH351B LED.

LED Source Details

SL.No	Parameter	Specification
1.	Lamp	LH351B
2.	LED Manufacture	SAMSUNG
3.	LED Forward Current	350 mA
4.	LED Forward Voltage	2.86 V
5.	LED Viewing Angle	120 ⁰
6.	Number of Sources	1
7.	Simulation Tool	Trace-Pro

Simulation Tool : Trace-Pro

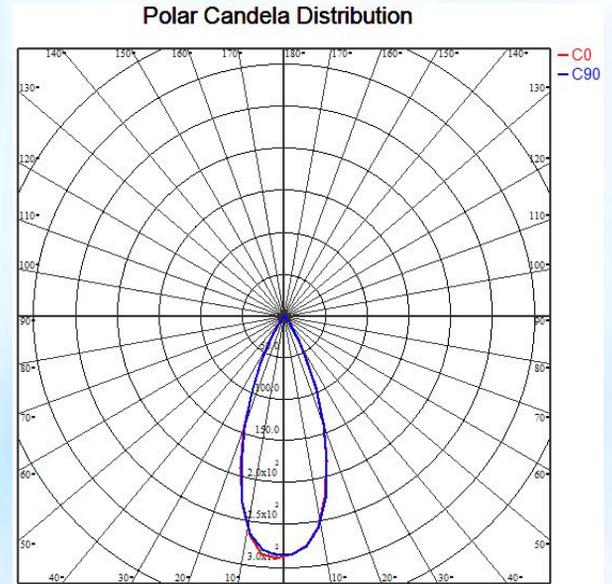

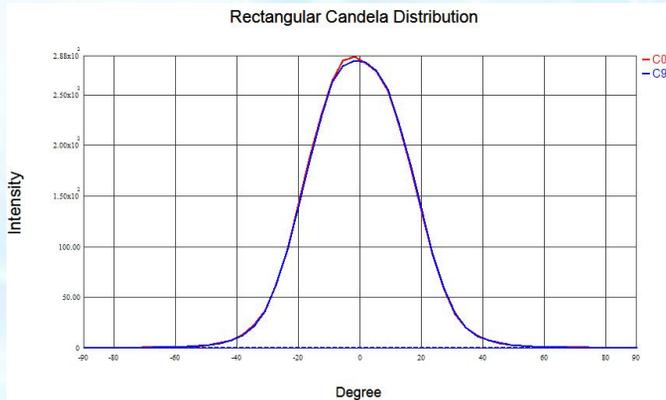

Trace-Pro is Award-Winning Opto-Mechanical software developed by ‘Lamda Research Corporation’USA, under SBIR grant from NASA.

It combines design, ray tracing, analysis, optimization methods to solve a wide variety of new problems in illumination design.

It provides advanced tools for designing medical devices, illumination, display back lights, light pipes, automotive lighting and many other applications.

Plots and Results

Intensity Distribution Plots:

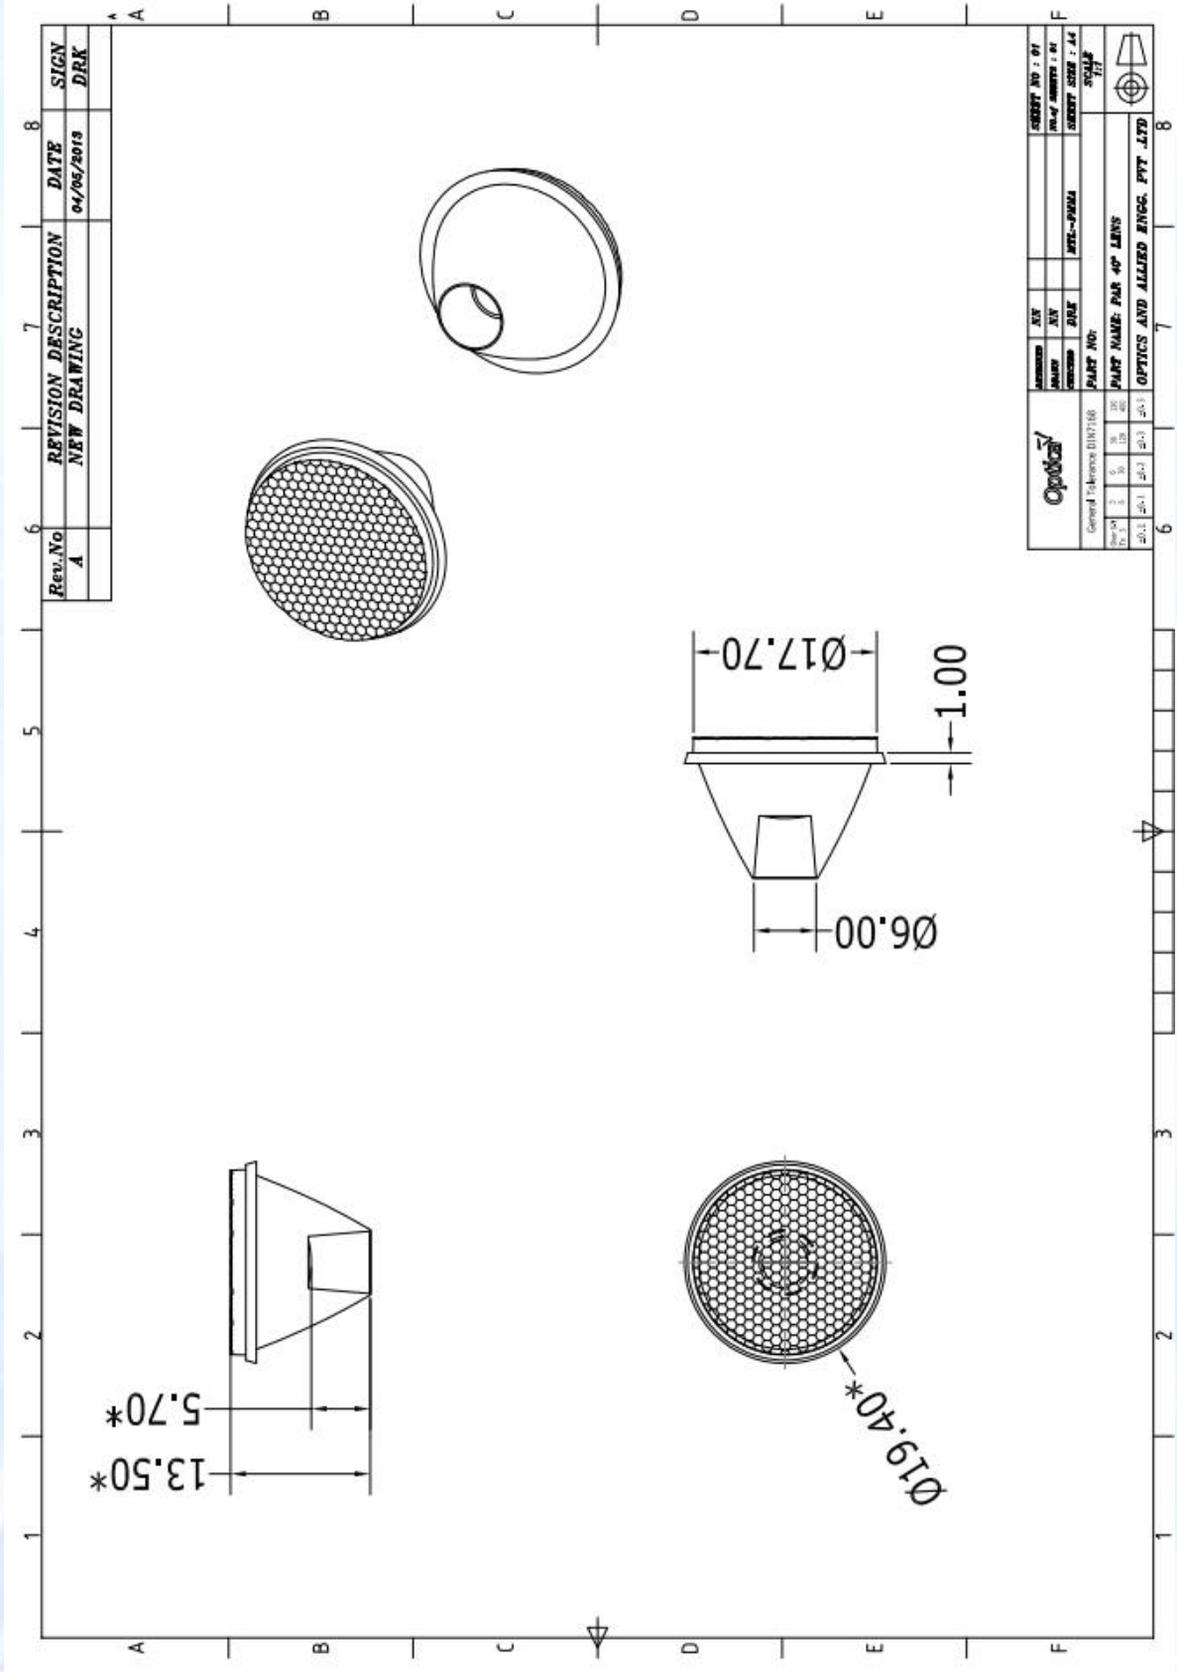

S. No	Parameter	Beam Angle
1.	FWHM Angle	46.88
2.	FWTM Angle	77.36
3.	Efficiency	93%
4.	cd/lm	2.0

Note:

FWHM angle -Full Width Half Maximum angle (Beam angle at 50% of the maximum Intensity)

FWTM angle - Full Width Tenth Maximum angle (Beam angle at 10% of the maximum Intensity)

Lens Drawing:

Rev.No	REVISION DESCRIPTION	DATE	SIGN
A	NEW DRAWING	04/05/2019	DRK

Optica							
General Reference DIM7188							
Part No:							
Part Name:	PAR 40 LENS						
Company:	OPTICS AND ALLED RINGS. PTT .LTD.						

“We Are Ready To Lead You Into The Future Of Optics”

- ❖ Our Components of high efficiency, are easy to mount and compact in size.
- ❖ Any flow lines on the external surface of the lens are acceptable if the optical characteristics are not affected.
- ❖ We are incredibly responsive to your requests and value your questions.
